

At Non-Profit JSC «Almaty University of Power Engineering and Telecommunications» will be held a defense of doctoral thesis of Umyshev Dias Raybekovich for PhD degree on the topic of «**Research and development of combustion chamber of GTU with low emission of the toxic substances**» on specialty 6D071700 – «Heat Power Engineering».

The thesis is done at Non-Profit JSC «Almaty University of Power Engineering and Telecommunications» at department of «Heat engineering installations».

Language of defense: **Russian**.

Reviewers:

1. **Shishkin Arkady Aleksandrovich** – candidate of physico-mathematical sciences, head of the laboratory of furnace processes of the Kazakh Research Institute of Power Engineering named after Sh.Ch.Chokin, specialty 01.04.14 – Thermophysics and Theoretical Heat Engineering, Kazakhstan, Almaty.

2. **Ustimenko Aleksandr Borislavovich** – doctor of technical sciences, director of JSC «NTO Plasmotechnics», specialty 01.04.14 – Thermophysics and Theoretical Heat Engineering, Kazakhstan, Almaty.

Scientific advisors:

Dostiyarov Abay Mukhamediyarovich - doctor of technical sciences, professor of the «Heat Power Engineering» department of S.Seifullin Kazakh AgroTechnical university, Kazakhstan, Astana.

Tumanov Musagul Elekenovich – candidate of technical sciences, assistant professor of «Heat engineering installations» department of Non-Profit JSC «Almaty University of Power Engineering and Telecommunications» Kazakhstan, Almaty.

Qiuwang Wang – PhD, Professor, Vice-dean of School of Energy and Power Engineering of Xi'an Jiaotong University, Xi'an, China.

Defense will take place on **28 June of 2017 at 14:00** in dissertation council on 6D071700 – «Heat Power Engineering», 6D071800 – «Electrical Power engineering», 6D071900 – «Radio Engineering, Electronics and Telecommunications» specialties of Non-Profit JSC «Almaty University of Power Engineering and Telecommunications» at: 050013, Almaty, 126 Baytursinov str., building A, №213, Conference hall of the Academic council.
